Knowledge to Action Sponsors Royal Polo Match

It was a royal red letter day for Knowledge To Action as founder and CEO Greg Secker awarded the “best pony” saddle to HRH Prince William at exclusive Cowarth Park on Sunday 5th July.

Knowledge To Action, Europe’s biggest trader coaching company, was one of the key sponsors of the Westbury Shield Royal Polo Challenge, a highly prestigious event that features the royalty of several leading nations competing for the cup. The event also raises money for the Princes Trust and notable environmental organisations such as tusk charities. The Knowledge To Action team (shown below) featured Prince Rashid of Jordan and Prince Abdullah of Malaysia, plus Andrew Hine, England coach.

Greg, who is an avid player and supporter of the sport, commented: “It’s been an amazing day. The weather has been outstanding, the matches first rate, and we’ve also raised a lot of money for some very good causes.”

Knowledge To Action are certainly no stranger to good causes, having been involved with a number of charitable drives and initiatives in the past, and both Greg and wife Sara (pictured below) are heavily involved with youth projects.

Notes to Editors:

Knowledge to Action Limited is regarded as the number one stock market and forex training company in Europe and is highly acclaimed for excellence in trader training and coaching. Founded in 2004, the company has taught thousands of ordinary people to generate an immediate monthly income through trading while minimizing risk. Individuals are taught clear strategies during a two-day immersion course (stocks or foreign exchange) and are each allocated their own trader coach for one-on-one coaching sessions, helping them to develop self-confidence and increase their skill in their chosen trading discipline. The company’s head office has its own live trading floor where company traders trade and coach delegates to make money using a variety of trading techniques and disciplines.

Courses include:

Traders University

Traders University is Knowledge to Action's flagship stock market course, teaching people how to trade both long (profiting when stock prices rise) and short (profiting when stock prices fall), trading the stocks in the FTSE 350 (the largest 350 companies traded on the London Stock Exchange), on an end-of-day basis.

Ultimate Forex Profits

This course teaches delegates how to generate consistent profits from trading the forex markets with tight risk management and clear strategies, incorporating both end-of-day and intraday trading. Ultimate Forex Profits is designed for traders who have at least some exposure to trading, whether that be stocks, spread betting, futures or options.

Master Trader

For those who are already trading but who wish to take their performance to the highest possible level, Master Trader equips delegates with the strategies and tactics to succeed as a full-time trader, including how to trade the US Markets (Nasdaq), Level 2 and Powerpivot and Prosetup trades.

Additional modules include: advanced one-on-one Momentum coaching, Forex Boot Camp and the Ultimate Wealth Programme.
